GENERAL SERVICE RATE
SCHEDULE "G"

AVAILABLE for service to general service customers with normal maximum electrical capacity requirements of 10 kW or less per month. When a customer being served under this Schedule establishes or exceeds a normal maximum requirement of 10 kW per month, the customer will be placed on the appropriate general service Schedule.

MONTHLY RATE

Customer Charge - $ 5.00 per month

Energy Charge

(D) First 400 kilowatt-hours .......................................................... $0.10205 per kilowatt-hour
(D) All additional-kilowatt-hours ...................................................... $0.08896 per kilowatt-hour

MINIMUM BILL

The minimum bill per month shall not be less than:

(a) $ 5.00, or
(b) $ 2.41 per kilowatt of capacity necessary to serve the Customer.

Also, the Company may install a demand meter on connections whose usage exceeds 5,000 kWh in any month. If a demand meter has been installed, the maximum reading of the demand meter in the previous 12 months will determine the kilowatt capacity necessary to serve. For connections without a demand meter, a kilowatt of capacity necessary to serve under this schedule shall be defined as the maximum number of kilowatt-hours used in the current month, or in any of the previous 12 months, divided by 120. If a Customer can demonstrate to the Company that his calculated demand is unreasonable, then the Company may change such demand or demands, and may elect to install a demand meter.
