

The Cost of The Jew's Open Border Policy

According to Fairus.org, Illegal Mexicans Cost the US tax payers \$1.35 Billion every year. \$89 Billion on the state level and \$46 billion from the Federal Government. These costs include Medicaid, Welfare programs, Court and Prison Costs, and education Costs, not counting basic services. Mexicans collect welfare at about 4 times the rate of Whites.

-Education for illegals costs EVERY US state nearly \$1 Billion every single year. Illegals also lower the level of education with confusion of Spanish and their low Mexican average IQ of 85. Less than 10% of Mexicans earn a high school diploma anyway.

-28% of federal Prisoners are Illegal Aliens. The numbers are similar for state prisons. For Example 95% of warrants for murder in California are for Illegals. 75% of California's Most wanted are Illegals. Look at the FBI's most wanted, it's always 90% Illegal Aliens. Never forget the true cost of crime which is endured by the victims.

-99.8% of America's illegal drugs cross the Mexican border. Illegal drugs cost America \$180 Billion a year in medical costs alone, in addition there's the court and prison costs. Mexican Gangs such as MS-13 & Latin kings who profit from these drugs are filling our streets with horrific violence and rape. With no regrets they will push these drugs of death onto your children!

-In addition Illegals are taking jobs from Americans and sending over \$85 Billion of their earnings back home to Mexico every year. It is Estimated that illegal labor costs Americans over \$200 Billion a year in suppressed wages.

-Mexicans have 3.9 kids per family so these problems multiply! You can't maintain a first world nation with third world savages!

Every year this is costing over us \$500 Billion. The Federal government just raised the Social Security retirement age to 74 for everyone born after 1983. We will slave our entire lives away to pay for this third world garbage to destroy our nation!
